SAFETY POLICY

Jimbob Rentals (2000) Ltd. is committed to a strong Health & Safety program that protects its staff, its property, the environment, and the public from accidents. Complying with, and meeting all applicable local, provincial and federal legislation will achieve this commitment.

Employees at every level, including management are responsible and accountable for the company's overall safety initiatives. Complete and active participation by everyone, everyday, in every job is necessary for the safety excellence the company expects. Management supports coordination of safety among all workers on the job site.

Management supports participation in the program by all employees and provides proper equipment, training and procedures. Employees are responsible for following all procedures, working safely and wherever responsible, improving safety measures.

An injury and accident free workplace is our goal. Through continuous safety and loss control effort, we can accomplish this.

**The safety information in this policy does not take precedence over OH&S Regulations. All employees should be familiar with the OH&S Act and Regulations.

ENVIRONMENTAL POLICY

Jimbob Rentals (2000) Ltd. believes that the protection of the environment benefits their employees, customers, general public and their families; both present and future.

Senior Management, supervisors and workers must be committed to performing their duties and job requirements in a responsible manner that benefits the environment. To achieve this end, JIMBOB Rentals (2000) Ltd. management and staff follow these practices:

- REDUCE: or cutting back materials that end as waste,
- REUSE: materials that still serve a useful purpose in the execution of work practices,
- RECYCLE: items that have no further use in their present condition but can be re-manufactured,
- EDUCATION: the changing of attitudes of all persons in the responsible management of the environment,
- ACCOUNTABILITY: all levels of staff must be accountable for their environmental performance.

In addition, all of our employees and contract persons are responsible for adhering to all government regulations concerning the environment.

Employees are encouraged to follow company environmental initiatives and management approves employee input to the continual improvement of the environmental program.
